

**Session 1:**  
**Research  
Consultant  
Program  
Overview**

---

**Session 2:**  
**Research  
Computing  
Resources**

---

**Session 3:**  
**World of  
Faculty  
Researchers**

---

**Session 4:**  
**Facilitation  
and  
Graduation**

## Research Consultant Program

In four sessions learn to assist faculty and/or researchers in utilizing and maximizing research computing resources.

### Why You Should Attend?

- Familiarize yourself with Research Computing (RC) resources
- Discover the life of faculty researchers
- Match faculty researchers' needs to the RC resources
- Get involved in the grant seeking process early on
- Develop stronger communication skills and become more efficient facilitators

### Who Should Attend?

UFIT and distributed IT staff

### What to Expect?

- You will be enrolled in an e-Learning course for pre-course materials.
- Throughout the program you will interact with the facilitator and your peers.
- After the program you will be equipped with knowledge and skills to assist faculty researchers in data management and seeking available research computing resources.

### How Long Is This Program?

Six hours (1.5 hours per session, one or two sessions per week)

**Cost: Free!**
